KEY

PROBABLE ARCHAEOLOGY

- Positive anomaly / weak positive anomaly - probable cut feature of archaeological origin
- Negative anomaly / weak negative anomaly - probable bank or earthwork of archaeological origin
- Widely spaced curving parallel linear anomalies - probably related to ridge-and-furrow

POSSIBLE ARCHAEOLOGY

- Positive anomaly / weak positive anomaly - possible cut feature of archaeological origin

OTHER ANOMALIES

- Area of amorphous magnetic variation - probable natural (e.g. geological or pedological) origin
- Positive anomaly - uncertain origin
- Increased magnetic response - former field boundary
- Closely spaced parallel linear anomalies - probably related to agricultural activity such as ploughing
- Linear anomaly - possibly related to land drain
- Magnetic disturbance associated with nearby metal object such as service or field boundary
- Scattered magnetic debris
- Magnetic spike - probable ferrous object

INTERPRETATION KEY NOT COMPLETE FOR PREVIOUS SURVEY

- Soil-filled features
- Service pipes

SURVEY AREA

- Stratascan survey area
- previous survey areas
