Dear Swindon Borough Council,
I would like to formally note my concerns regarding the proposed housing development around south marston village.
As a resident of south marston for the past 15yrs and being a dog owner I have walked nearly every area of the village and notice certain areas that are more prone to flooding than others. One such area is around South Marston Farm along Sandy Lane. This is an area that has been identified for development. We live in ash gardens which I feel could be at risk of flooding if this development goes ahead.
I am also concerned about the extra traffic from the new developments that will be using Thornhill road to get to Highworth. As a pedestrian I put myself in danger walking from the village to the Bridlepath leading to sainsburys as there is no path, this will only get more dangerous with the extra traffic which will obviously use this route to get to highworth or supermarine.
My final concern is the ability to get access to the roundabout at sainsburys, at the moment it can be frustrating if you get stuck behind a lorry from the Keypoint rail freight terminal. This is only going to get worse with the future development and the potential waste management site being built at Keypoint.
I would also like to take this opportunity to ask the question regarding the rail freight terminal at south marston:- How many freight trains a year leave the terminal at south marston?
I was lead to believe that planning permission was only granted on the basis that a certain amount of freight was taken by rail.
In the 15yrs I have lived here I have not seen 1.
Surely, if more freight was taken by rail this would help with the road congestion.

Many thanks
Mark AYRES
