submitted document provided Archaeological Management details for the entirety of South Marston and Rowborough. However, as the wording for the application description related only to Phases 1 and 4 in South Marston (now South Marston Phases 1 and 2 as per the approved Phasing Plan (ref: S/COND/23/0848)) the condition was only partially discharged.

We therefore seek the approval of the Archaeological Management Plan in relation to Rowborough to complete the discharge of condition 39.

The approach and scope of the Management Plan has been discussed and developed with Wiltshire County Council, in their role as archaeological advisor to Swindon Borough Council. There have been no changes to the document since it was previously discussed with Wiltshire County Council.

The application has been supported by the requisite application fee (£145.00), paid via the Planning Portal.

We therefore trust that the documents provided will ensure the validation of this planning application and will be able to progress swiftly to a positive determination.

Please do not hesitate to contact me or my colleague Tanya Cosford (tcosford@davidlock.com) should you have any queries on this submission.

Yours sincerely,
