Executive Summary			

Full Comments

Further to my previous memo of 19/11/2024, the applicant has submitted a revised arboricultural method statement (prepared by FPCR dated November 2024) and a suite of updated drawings, including those for the landscape scheme (IDPL LA5979-BP-401/402/403 Rev E), the Soft Landscape Proposals General Arrangement (IDPL LA5979-BP-400 Rev F) and the Highway Layout (240616-RAP-XX-XX-DR-C-0101 Rev P05).

The submitted information confirms the proposed amendments that were discussed at the meeting of 19/11/2024. In that regard, I am satisfied that the proposal now addresses the concerns set out in my memo of 19/11/2024 and that the outstanding arboricultural elements have been satisfactorily resolved. I advise that, if planning permission is granted, a condition is attached requiring compliance with all of the tree protection measures set out in the FPCR arboricultural method statement (dated November 2024) and associated tree protection plans (FPCR 1796-T-49 Rev B and 1796-T-51 Rev B).
