Developments Affecting Trunk Roads and Special Roads

Highways England Response & Formal Recommendation to an Application for Planning Permission

From: Andrew Page-Dove (Divisional Director),
Network Delivery and Development
South West Region
Highways England.

To: Gary Palmer, Swindon Borough Council

CC: maureen.pullen@dft.gsi.gov.uk

Council's Reference: S/OUT/13/1555

Referring to the notification of a planning application referenced above, in connection with the A419T, New Eastern Villages, Swindon notice is hereby given that Highways England's formal recommendation is that we:

~~a) offer no objection;~~

~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – Highways England recommended Planning Conditions);~~

c) recommend that planning permission not be granted for a specified period (see Annex A – further assessment required);

~~d) recommend that the application be refused (see Annex A – Reasons for recommending Refusal).~~

Re Highways Act Section 175B:

~~a) Highways England consents / does not consent to access for any new connections to the Strategic Road Network as part of this application;*~~

b) Not relevant (the last for where there is no common boundary between the planning site and the SRN).

* Where we give consent (a), under Section 175B, this is applicable only to the particular planning application and its accompanying documents, including agreed junction designs.

This represents Highways England formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should you disagree with this recommendation you must consult the Secretary of State for Transport, as per the Town and Country Planning (Development Affecting Trunk Roads) Direction 2015, via transportplanning@dft.gsi.gov.uk.

Highways England: Highways England, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6HA	

Annex A Highways England recommended Planning Conditions / Highways England recommended further assessment required / Highways England recommended Refusal.

HIGHWAYS ENGLAND ("we") has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such works to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

This response represents our formal recommendations with regard to application reference S/OUT/13/1555 in connection with the A303T and has been prepared by Rachel Sandy of the Network Delivery and Development Growth and Improvement Team and Network Manager for the SRN in Wiltshire.

Statement of Reasons

Highways England provided a further formal consultation response in respect of this planning application on 4 June 2015. At that time, it was recommended that the existing recommendation of temporary non-approval was extended for a further 6 months as the additional information and assessment requested by Highways England had not been forthcoming. The additional information requested at that time remains outstanding.

Until such time as this additional evidence and information has been submitted to Highways England for review, we are unable to determine the impact of the proposed development on the SRN and address the concerns outlined in our previous consultation responses.

On this basis, we are recommending that the planning application not be approved for a further 6 months to enable the applicant to complete and submit the additional technical work for review.

I trust the above is clear. Please do not hesitate to contact me if you require any further information.
