SBC Application Ref:
S/COND/22/1820

Dear Ros,

LAND KNOWN AS SOUTH MARSTON AND ROWBOROUGH, LAND NORTH OF A420 - LPA REFERENCE S/OUT/13/1555 APPLICATION FOR THE DISCHARGE OF CONDITION 27 (OLD VICARAGE LANE/A420)

The enclosed package of information is submitted by David Lock Associates on behalf of our clients Vistry Cotswolds and Taylor Wimpey Bristol, as an update to the information previous submitted on 21 December 2022, with respect to the discharge of Condition 27 noted above (SBC ref: S/COND/22/1120), of planning permission S/OUT/13/155 (approved 11 August 2021).

Condition 27 states:

> *'No work to commence on site that requires access from the OVL until an interim works scheme, in general accordance with drawing 1335-060-03 (submitted to LPA on 21st October 2019) and detailed design for the highway scheme improvement works to OVL junction with the A420, in general accordance with drawing 1335-HL-72-Rev C (submitted to LPA on 13th October 2017) have been submitted and approved in writing by the LPA and has been let to contract. The interim works shall be in place prior to the commencement of development, and the highway scheme improvement works to the junction must be complete to base course and operational before the first dwelling is occupied, where access is taken off the OVL.'*

This application seeks to partially discharge Condition 27 (Old Vicarage Lane/A420) in relation to gaining the approval of the GA drawings for the final design of the signalise junction.

This application submission comprises the following information:

- This Covering letter
- Lighting Area Calculations (ref: WLC612-2-LC-AC-001-R0)
- Drawings

Following the original submission for the discharge of C27, comments on the application were received from SBC Highways, SBC Conservation, Network Rail and South Marston Parish Council.

Since the comments were received, significant engagement has been undertaken with SBC Highways through the S278 process, ensuring that the technical design of the proposed new junction meets adoptable standards. The Highways Authority has since provided Technical Approval of the scheme, subject to planning permission. A summary of the amendments to address the consultee comments received is set out below.

As part of these discussions, the extent of the highway boundary has been widened to align with SBC Highways comments, providing wider verges where possible. Following discussion with the highway's authority and Ed Snook, it was agreed that the proposed pedestrian and cycle route, running to the north of the A420, would be moved further east to provide a clearer future connection to the Great Stall East site, located to the south of the A420. This new crossing will now form a separate RM application.

A separate application (ref: S/COND/23/0154) was submitted on 08 February 24 which included wider details, which sought the partial discharge of conditions 36 (Construction Method Statement), 37 (Construction and Environmental Management Plan), 13 (Tree Protection) 53 (Slab Levels) and 54 (Materials), in relation to the proposed new signalised junction.

Please do not hesitate to contact me or my colleague Sam Wood (swood@davidlock.com) should you have any queries on this submission.

Yours sincerely,

TANYA COSFORD
