Consortium, but would like to take a consistent approach, as previously agreed, for the other junctions. The intention is to keep a running total of tree/hedge removals and offset these at a later date as part of a reserved matters approval that covers a larger area. We also need to also be mindful that C27 is an access condition dealing with the junction GA and impact mitigation. Furthermore, Brookbanks have advised that the LHA are unlikely to want to adopt additional planting (other than grass re-seeding) around the immediate junction (and S.278 boundary) for visibility and cost reasons.

Please do not hesitate to contact me or my colleague Sam Wood (swood@davidlock.com) should you have any queries on this submission.
